CAPABILITY STATEMENT

Service-Disabled Veteran-Owned Business
IT Consulting · Custom AI Applications · Process Automation · Staff Augmentation

Company Overview

CPAT Group LLC is a service-disabled veteran-owned IT consulting and staff augmentation firm founded in 2014 and based in the Denver, Colorado area. Owned and managed by a U.S. Air Force Academy graduate and former Air Force acquisition program manager with 29 years of IT and PMO leadership – including roles at Honeywell, Ball Corporation, United Airlines, and SAIC – CPAT delivers hands-on, full-suite IT services that modernize operations, automate processes, and reduce cost – Big 4–level outcomes at a fraction of Big 4 rates.

Core Competencies

- **Custom AI Application Development** – AI-enabled apps built in the client's own infrastructure and cloud, integrated with existing systems. Client owns the code – no licensing or subscription fees.
- **Business Process Automation & Continuous Improvement** – process documentation, gap analysis, automation and AI opportunities, solution delivery, and ROI tracking (Lean Six Sigma Master Black Belt led).
- **IT Program Delivery & PMO** – program and project management, PMO leadership, Agile, portfolio prioritization, governance, and program recovery.
- **IT Financial Management** – budget and spend tracking, forecasting, ROI and capital request analysis, cost optimization.
- **Contract & Vendor Management** – contract lifecycle, vendor governance, RFP development, contract libraries.
- **IT Governance, Risk & Security Governance** – operating model design, frameworks, risk and compliance support.
- **Enterprise Applications & Data** – integration, modernization, BI, analytics, dashboards, and observability.
- **Infrastructure & Operations** – infrastructure services, cloud strategy and migration, service delivery.
- **Senior IT Staff Augmentation** – full-time W-2 consultants who integrate directly into client teams.

Industries Served

Federal government and Department of Defense, aerospace and defense, food manufacturing and distribution, and enterprise IT organizations.

Differentiators

- **End-to-end delivery** – document, analyze, build, train, support adoption, and measure ROI.
- **Client-owned solutions** – no proprietary platforms or vendor lock-in.
- **Multi-dimensional talent** – cross-trained consultants who cover multiple roles.
- **Certified team** – AI, PMP, Microsoft, ITIL, CSM, and Lean Six Sigma credentials.
- **Flexible, transparent pricing** – fast response without an SOW for every ask; competitive hourly rates.
- **Platform-agnostic** – Microsoft, Google, and AWS, with deep Azure expertise.
- **Defense acquisition roots** – Air Force and Space Force program management and acquisition policy.

Past Performance

U.S. Air Force & U.S. Space Force (2014 – 2022)

Subcontractor to Alpha Omega Group supporting Air Force Space Command and Space Systems Command – acquisition process and policy advisory, PMO leadership, IT and app development program management, process improvement, and knowledge management.

National Food Manufacturing & Distribution Enterprise (2022 – Present)

Embedded IT partner with 12 full-time consultants – program management, continuous improvement, IT financial and contract management, governance, risk, security governance, infrastructure support, and custom AI applications.
